# Introduction to Responsive Classroom

## One-day workshop
Suitable for educators of grades pre-K–8

## Transform your classroom into a safe, joyful, and engaging community.

*Responsive Classroom* is a research- and evidence-based approach to teaching and discipline. The approach's developmentally appropriate practices focus on creating a positive learning community and include strategies for engaging academics and effective management.

In this overview workshop, learn how the *Responsive Classroom* approach creates the optimal learning conditions for students to develop the academic, social, and emotional skills they need to be successful in and out of school.

## Participants will:

- Learn ways to build and nurture a positive and inclusive learning environment
- Explore the proactive practice of Interactive Modeling to support student success
- Experience interactive learning structures, energizers, and brain breaks that support cognitive, social, and academic growth
